

Treating you better...for life.

INSTITUTIONAL STATEMENT OF COMMITMENT TO GRADUATE MEDICAL EDUCATION

In keeping with our mission of patient care and medical education, Saint Peter's University Hospital (SPUH) is committed to providing an organized program in Graduate Medical Education (GME). The program provides guidance and supervision of the residents/fellows, facilitating the trainee's professional and personal development while ensuring safe and appropriate care for patients

SPUH is committed to providing essential administrative, educational, financial, human and clinical resources necessary to enable the educational programs to achieve substantial compliance with the Accreditation Council for Graduate Medical Education Institutional and Program Requirements in an ethical and professional environment.

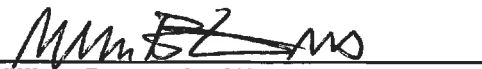

SPUH is committed to assessing the quality of the educational programs on a regular basis.

The Board of Governors, the administration, the teaching faculty and medical staff support this statement of commitment, developed by the GME Committee. SPUH is committed to providing the leadership for this effort through the GME Committee, individual department chairs, program directors and coordinators.

The Graduate Medical Education (GME) mission of SPUH is to train a diverse group of residents and fellows in the central New Jersey multicultural community-based and community-focused setting, utilizing teamwork, a mutually supportive environment and a caring approach which prioritizes patient safety and quality. We will thoughtfully and thoroughly mentor our residents and fellows and prioritize their well-being while emphasizing continuous educational quality improvement. We are committed to humble service to humanity, especially the poor, through competence and good stewardship of resources. Thus, our GME mission is fully aligned with the overall mission of SPUH.
